

Petaluma

As is the case with most incorporated areas, Petaluma has few places that are not within 2,000 feet of a school or park. Mapped are the areas that would be off limits to sex offenders and the current location of registered offenders.*

● Current location of registered sex offender*

*Not all sex offenders show up on the Megan's Law Web site, which excludes the addresses of registrants convicted of felony sexual battery by restraint, misdemeanor child molestation and some cases involving family members that do not involve penetration or oral copulation. Registered offenders who are homeless also are not identified by location.
